

ONE man's opinion is worthy of consideration—the opinions of fifteen thousand men—all of them practicing physicians—command your confidence.

In expressing his belief in
Sanatogen
THE FOOD-TONIC

Professor Thomas E. Stillman, M.S., Ph.D., the well-known research chemist of Stevens Institute writes:

"The chemical union of the constituents of Sanatogen is a true one, representative of the highest skill in the foundation of a product containing phosphorus, in the form of phosphoric acid, and as combined that digestion and assimilation of Sanatogen are rendered complete with the greatest ease."

This same general appreciation runs through the 15,000 letters received from practicing physicians who recognize in Sanatogen the ideal food for exhausted nerves—the food-tonic you need, for your nerves.

The work of a physician, carefully illustrated, containing facts of vital interest to you.

Sanatogen is sold in three sizes, \$1.00, \$1.50, \$3.00.

Get Sanatogen from your druggist or mail order from him, sent upon receipt of price by

THE BAUER CHEMICAL CO.

LACROSSE, Wis. — Mrs. Mary Grahowski, wife of a manufacturer at Green Bay, Wis., and Joseph Hudson, her confessed affinity, were sentenced to the penitentiary at Waupun for one year, as the result of an elopement. Each is 28 years old. Mrs. Grahowski, who has been married twelve years, professed in court her love for Hudson, and the couple before being separated clasped hands and promised to wed after serving their terms and after the woman had obtained a divorce.

NEW SOURCE OF WATER SUPPLY; NOW RUNS WASTE

A hitherto unsurveyed source of water-supply has been definitely located by the water resources branch of the U. S. Geological Survey here in the Kalihi Valley stream. For the first time exact estimates of the flow of the stream were made day before yesterday, when G. K. Harrison, district engineer, and his men put a gauge on the stream and ascertained that even at low water it furnishes a volume of a million and a half gallons every twenty-four hours.

The measurement was taken at a 45-foot level, high enough to furnish service for Honolulu. Engineer Harrison says that with comparatively little difficulty this water could be developed for city use.

"The water has been about as low as it ever gets, and this big volume shows what a valuable stream is going to waste," he commented.

DISTRIBUTION OF \$4000 IS DELAYED BY THAYER

Payment of the \$4,000 appropriated by the recent legislature to the materialmen who furnished supplies for the new Boys' Industrial school at Waihee, has been ordered suspended by Attorney General Thayer, until he can ascertain how it shall be handled. It develops now that the claims left unpaid by Contractor Angus P. McDonald when he suddenly disappeared, amount to \$6,500, and the amount set aside by the legislature to reimburse McDonald's creditors is not sufficient to cover it.

Whether the claims shall be paid in the order in which they were filed in the public works office until the appropriation is exhausted, or payments made pro rata to all, is the problem confronting the attorney general. It is understood that the supreme court ruled against the pro rata method of payment in a former case of a somewhat similar nature.

Office boy: There are two men out here, sor, who want to see you; one of them is a poet and the other a deaf man. Editor: Well, go out and tell the poet that the deaf man is the editor, and let them fight it out between them.

BIRTHDAYS AND K. SMITH, U. S. N., WEDDINGS ARE CELEBRATED

Celebrating simultaneously their birthdays and wedding anniversaries, Mrs. A. F. Letson, mother of Mrs. W. A. Bryan, and Mrs. William Emory, mother of Mr. Walter Emory, yesterday afternoon and last night were the central figures in a unique and picturesquely-carried out series of home affairs. The functions took place at the residence of Professor and Mrs. W. A. Bryan on Punahou and King street.

It was the forty-fourth anniversary of Mrs. Letson's wedding and the fifty-fourth anniversary of Mrs. Emory's wedding, and furthermore each celebrated a birthday yesterday. In the afternoon there was a bridge party to which two other ladies, Mrs. Phoebe Hill and Mrs. Martha Owen, were invited and in the evening there was a dinner party for the "Clover Club," a little organization that has had a pleasant existence for some time. The gentlemen invited for the evening were Charles Hustace Sr., Dr. A. B. Clark, Dr. N. B. Emerson and M. A. Pettor. At dinner each guest found an appropriate favor—Irish crocheted card cases for the ladies and pocket notebooks for the men. After dinner cards were played.

Mr. and Mrs. Walter Emory and Prof. and Mrs. W. A. Bryan were present during the evening to help celebrate the coincident anniversaries, and Mrs. Letson and Mrs. Emory Sr. were the recipients of many flowers and gifts.

Prof. and Mrs. W. A. Bryan are leaving on the transport Logan and will spend several weeks on the mainland.

"Father in?" "Nope." "Mother in?" "Nope." "Sister?" "Nope." "Brother?" "Nope." "Well, it strikes me as mighty strange that even you are in." "I guess they wanted to play a joke on me is the reason they didn't tell me you was comin'."

Medical officer: What did you do first of all? Ambulance man: Gave 'em some brandy, sir. Medical officer: Quite right; but what would you have done if you hadn't any brandy? Ambulance man (promptly): Promised 'em some.

KIRBY SMITH, U. S. N.

Assistant Civil Engineer Kirby Smith, U. S. navy, who has been stationed here for nearly three years, and who has been identified with the growth of the Pearl Harbor naval station, has just received cable orders to proceed to Newport, R. I., for duty there. He will leave this evening on the transport Logan.

Civil Engineer Smith and Mrs. Smith have been prominent figures in service and civilian society, and they will be missed by a large circle of friends.

GRAND JURY ENDS WORK AT HILO

(Special Star-Bulletin Correspondence)

HILO, June 2.—The grand jury completed its work Saturday afternoon after a full week's session. In its final report two more indictments were reported, one of them being against Marcello Quiros, the former Filipino police officer accused of assault on a little Spanish girl. The man was discharged in the district court, the judge holding that the testimony of the girl was not sufficient to convict, but the mother carried her complaint to Attorney General Thayer, who advised Judge Parsons to place the matter before the grand jury.

Another indictment was of a young Spanish woman against whom a true bill for perjury was returned. The woman swore to a complaint against a Spanish youth, charging rape, and then later is alleged to have stated that she did so to shield another man. The woman is in a delicate condition and is little more than sixteen years of age. She is to come up for plea in the circuit court and has retained W. H. Smith to defend her.

The trial jury convened this morning and returned one conviction before noon. This was of a Porto Rican charged with burglary, committed at Mountain View. He will be sentenced tomorrow.

Cable News

COULD NOT FIND INSIDIOUS LOBBY.

(Associated Press Cable)
WASHINGTON, June 3.—A special committee of the senate yesterday took the trail pointed out by President Wilson, which would lead them, he said, to "the most insidious lobby in the history of congress." The senate investigators followed the trail to its end and then announced that it had found nothing insidious or not legitimate.

The committee reported that it had found no evidence of senatorial or outside influence improperly used to affect pending legislation and emphatically denied the existence, so far as the members had been able to learn, of any "insidious lobby" such as appeared to be meant in the president's interview with the press.

PORTLAND ELECTS MAYOR.

(Associated Press Cable)
PORTLAND, Oregon, June 3.—H. R. Albee was yesterday elected the first mayor of Portland under the new government commission charter. His opponent was present Mayor Rushlight. Albee received strong support from the women voters.

FREE LIST BROKEN.

(Associated Press Cable)
WASHINGTON, June 3.—The free list of the Wilson-Underwood tariff bill was broken yesterday and the majority of the senate finance committee having the bill in hand gave evidence, startling to the administration, that it was ready to take action on evidence presented to it that legitimate industries would be injured if the evidence be convincing.

The committee acted yesterday on various sections of Schedule G and agreed to a number of changes, the most vital of which consisted in taking meat and flour from the free list and restoring a partial duty.

MANY CALIFORNIA AUTOS.

(Associated Press Cable)
SACRAMENTO, Cal., June 3.—That this is a most prosperous summer so far for California is shown in the list of new automobiles registered with the state registration bureau. During the month of May 3798 machines of various makes were entered in the records, representing an investment of \$759,600.

POLICE HEAD FOR RECALL.

(Associated Press Cable)
NEW YORK, June 3.—Declaring that the recent revelations of corruption and crime within the police department demonstrate his incompetency and unfitness for office at the head of the department of police, the board of aldermen of this city yesterday passed a resolution, addressed to Mayor Gaynor, requesting the removal of Commissioner Rhinelander Waldo.

RANK CONFERRED.

(Associated Press Cable)
LONDON, June 3.—Literature and the drama are represented in the list of the birthday honors announced last night on the eve of the forty-eighth anniversary of the birth of King George V.

Baronetcy is conferred on James Matthew Barrie, the celebrated Scottish author and playwright, whose "Peter Pan" is known throughout the English-speaking world and whose romances and tales in the Scotch dialect rank among the modern classics.

CURRENCY REFORM AND MONEY BILLS

(Associated Press Cable)
WASHINGTON, D. C., June 3.—The house Democrats, in caucus yesterday, decided that no legislation will be attempted at this special session of congress other than that already announced.

CASTORIA

for Infants and Children.

Physicians Prescribe Castoria.

CASTORIA has met with pronounced favor on the part of physicians, pharmaceutical societies and medical authorities. It is used by physicians with results most gratifying. The extended use of Castoria is unquestionably the result of three facts: 1st, The indisputable evidence that it is harmless; 2nd, That it not only allays stomach pains and quiets the nerves, but assimilates the food; 3rd, It is an agreeable and perfect substitute for castor oil. It is absolutely safe. It does not contain any opium, morphine, or other narcotic and does not stupefy. It is unlike Soothing Syrup, Bateman's Drops, Godfrey's Cordial, etc. This is a good deal for a medical journal to say. Our duty, however, is to expose danger and record the means of advancing health. The day for poisoning innocent children through greed or ignorance ought to end. To our knowledge, Castoria is a remedy which produces composure and health, by regulating the system—not by stupefying it—and our readers are entitled to the information.—*Hill's Journal of Health.*

The signature of *Dr. H. H. H. H.* guarantees genuine Castoria

"Your Castoria stands first in its class. In my thirty years of practice I can say I never have found anything that so filled the place."
WILLIAM BELMONT, M. D.,
Cleveland, Ohio.

"I have used your Castoria in the case of my own baby and find it pleasant to take, and have obtained excellent results from its use."
R. A. BUCHANAN, M. D.,
Philadelphia, Pa.

"I take pleasure in recommending your Castoria, having recommended its use in many instances, and consider it the best laxative that could be used, especially for children."
NATHANIEL K. KING, M. D., St. Louis, Mo.

"Having during the past six years prescribed your Castoria for infantile stomach disorders, I most heartily commend its use. The formula contains nothing deleterious to the most delicate of children."
J. B. BAKER, M. D., New York City.

Children Cry for Fletcher's Castoria.

In Use For Over 30 Years.

THE CASTORIA COMPANY, 27 NASSAU STREET, NEW YORK CITY.

ORIENT CLAMORS FOR SEWING MACHINES

No less than 5000 sewing machines composed part of the cargo of the Blue Funnel liner Ixion, Captain Riepenhausen, which left Victoria bound for Liverpool via Oriental ports some days ago. These machines are for Japan and China, and the departure of the Ixion with such a consignment is considered practically a real proof of the awakening of the Far East.

Besides being a record in point of number, the machines taken out by the Ixion represents the result of a determined effort on the part of the big machine-making companies, to induce the Oriental women to give up from the South ever stowed away in favor of the more modern.

This consignment, however, is but one example of the modernizing of Japan and China, since practically every vessel which leaves this country for the east carries a consignment of automobiles, phonographs, motorcycles or similar modern inventions.

Apart from the sewing machines, the Ixion broke another record when she cleared the port of Victoria, since she carried the largest general cargo from the South ever stowed away in a Blue Funnel liner.

Altogether she took 16,000 tons of general merchandise, wheat and flour included. The program of the session will be confined from now on to the enactment of a currency reform bill and to the passage of any emergency appropriation bills which may be found necessary for the proper carrying on of the government.

being the principal. Canned fish, scrap tin, lumber, cotton automobiles and machinery composed the more important of the other consignments, and the carrying capacity of the steamer was taxed to its utmost.

Lieut. Elyson, an American aviator, has brought suit for \$10,000 against railroad companies for injuries received when he slipped on a grease spot in the Union station at Washington.

Get a Palm Beach

Suit of washable Clothing at \$12.50 and feel as well dressed as the man in Pongee.

This material washes well, does not shrink, and the garments retain their shape.
